

Frequency compositions of the micro-organisms (state: 22.03.2020)

No.	Names	No.	Names
20,1	Bacterial defence strepto- / enterococcus	149,53	Virus defence ebola
20,11	Bacterial defence spirillaceae	149,54	Virus defence SARS-CoV-2
20,12	Bacterial defence bordetella pertussis	149,6	Virus defence perk
20,13	Bacterial defence salmonella	149,7	Virus defence rhino
20,14	Bacterial defence helicobacter	149,8	Virus defence papilloma (hpv)
20,15	Bacterial defence borrellia	149,9	Virus defence psoriasis
20,16	Bacterial defence yersinia	150,0	Virus defence parvo
20,17	Bacterial defence listeria	150,01	Virus defence rubella
20,18	Bacterial defence putrefactive bacteria	150,1	Virus defence AZH
20,19	Bacterial defence pseudo monas	150,2	Virus defence pancreas
20,21	Bacterial defence haemophilus	150,3	Virus defence parainfluenza
20,22	Bacterial defence N.N., vocal ligaments 1	150,31	Virus defence measles
20,23	Bacterial defence N.N., vocal ligaments 2	150,32	Virus defence mumps
20,24	Bacterial defence mycobacterium	150,4	Virus defence borna
20,25	Bacterial defence mutant streptococcus	150,5	Virus defence flavi (dengue / yellow fever / FSME)
20,26	Bacterial defence klebsiella	150,6	Virus defence herpes simplex / zoster
20,27	Bacterial defence escherichia coli	150,7	Virus defence hepatitis B / D
20,28	Bacterial defence clostridium	150,8	Virus defence hepatitis C / G
20,29	Bacterial defence bacillus	150,9	Virus defence HIV
20,31	Bacterial defence pain bacteria	151,0	Virus defence herpes morbus Crohn / ulcerative colitis
20,32	Bacterial defence rickettsia	151,1	Virus defence herpes cytomegaly
20,33	Bacterial defence legionella	151,2	Virus defence chikungunya
20,34	Bacterial defence chlamydia	151,3	Virus defence retro HTLV
20,35	Bacterial defence staphylococcus aureus (MRSA)	151,4	Virus defence hepatitis A
		151,5	Virus defence hepatitis E
20,7	Flea defence	151,51	Virus defence S.E.N.
20,8	Mite defence (black mite)	151,6	Virus defence rota
20,81	Head lice defence	151,7	Virus defence noro
20,9	Protozoa defence (i.e. lamblia intestinalis)	151,8	Virus defence virions
57	Yeast fungus defence candida	219	Dermatophyte defence
		273	Fungal findings defence invasive
149,0	Virus defence hanta	309	Yeast fungus defence pityrosporum ovale
149,1	Virus defence adeno		
149,2	Virus defence herpes genitalis	310,1	Parasite defence helminths / leeches
149,3	Virus defence influenza type A	310,2	Parasite defence strongyloid threadworms
149,31	Virus defence influenza type A / H1N1	310,3	Parasite defence Leishmania
149,32	Virus defence influenza type A / H5N1	310,4	Parasite defence Pneumocystis carinii
149,4	Virus defence herpes Epstein-Barr	310,5	Parasite defence fox tapeworm (echinococcosis)
149,5	Virus defence SARS-CoV / HCoV	310,6	Parasite defence Plasmodium (malaria)
149,51	Virus defence zika	310,7	Parasite defence Trypanosoma cruzi (morbus Chagas)
149,52	Virus defence MERS-CoV	455	Blood parasites defence
